ANTHROPOLOGY 201.01 An Introduction to Primatology & Human Evolution Fall 2013

Time: T-TR 9:30-10:45 Location: EDC 386

Instructor:

Dr. Pascale Sicotte

Office: ES 602E

Tel:

220-6688

E-mail: sicotte@ucalgary.ca

Office Hours: Wednesdays 2-3 pm or by appointment.

TA: Angela Crotty

E-mail: ammcrott@ucalgary.ca

Office Hours: Tuesday 11-12 am and Thursday 1-2 pm

Location: ES 722

REOUIRED TEXT

Boyd R, and Silk JB (2012) How humans evolved, 6th edition. New York: W.W. Norton & Company. Note: This edition differs considerably from earlier ones. It is thus strongly recommended that you use the 6th edition.

COURSE DESCRIPTION

This course examines the place of humans and of our closest relatives the non-human primates in the natural world. It provides an introduction to evolutionary principles and processes, an exploration of the patterns of anatomical, behavioural, and genetic variation in the Order Primates, and an overview of the evolution of our species as reconstructed from the fossil record.

We begin with a review of the history of evolutionary thought, focusing on the theoretical contributions of Charles Darwin and his contemporaries. We will also see how evolutionary theory developed during the 20th century and up until the present, incorporating modern genetics, population biology, microevolution, and macroevolution. The goal is to clarify these fundamental biological concepts for a better understanding of the evolution of unique primate and hominin features.

In the second section, we will review the various groups making up the Order Primates. We will discuss what makes primates unique among mammals, and how primate taxonomic groupings vary in morphology, ecology, and social behaviour. We will discuss the contribution of comparative primatology to our understanding of the human phenomenon.

Finally, we will focus on human evolution. We will trace our lineage through the appearance of major new radiations, including the hominoids, the early hominins, the early species of the genus Homo, and, finally, anatomically modern humans. We will examine the fossil, molecular, and archaeological evidence for these major developments in human evolution.

COURSE REQUIREMENTS

Exam	Date	% Overall Grade
#1	Oct 3	33.3%
#2	Oct 31	33.3%
#3	Registrar-scheduled	33.4%

NOTE: Exams are not cumulative and are all multiple-choice

Final course grades will be calculated as follows:

```
A+ 100 - 94.9%
```

- A 94.8 89.9%
- A- 89.8 84.9%
- B+ 84.8 79.9%
- B 79.8 74.9%
- B- 74.8 70.9%
- C+ 70.8-66.9%
- C 66.8 62.9%
- C- 62.8 58.9%
- D+ 58.8 54.9%
- D 54.8 49.9%
- F 49.8% and below

Important:

- 1- Deferred exams are possible <u>only</u> for serious reasons (and the demand needs to be backed up by proper documents). A missed examination automatically receives a score of zero. In the event of an emergency or illness, the anthropology office (220 6516), the instructor or the teaching assistant must be notified before the exam, and documentation must be provided. Performance on make up exams is typically lower.
- 2- Results of the exams should be posted on blackboard one week after the examination. Exams are not returned to the students. The teaching assistant will offer office hours if you want to consult your exam. If you have concerns about your evaluation, you will be asked to provide a detailed written statement of your concern. Deadline for the submission of written statement is one week after results of an examination have been posted.
- 3- Students are responsible for materials covered in the textbooks and in the lectures, including the films and any guest lectures. Classroom materials missed due to absenteeism are the sole responsibility of the student.
- 4- It is fine for students to take notes during class using their laptop. However, be considerate and do not use electronic devices during class time for purposes unrelated to class (e.g., checking email, watching movies, Facebook, games etc), as this has the potential to disturb other students. And equally importantly, allow yourself to focus on the class content by turning off these devices.

Useful Numbers:

Department of anthropology: 220 6516 SafeWalk/Campus Security: 220 5333

ACADEMIC ACCOMMODATIONS

It is the student's responsibility to request academic accommodations. If you are a student with a documented disability who may require academic accommodation and have not registered with the Disability Resource Centre, please contact their office at 220-8237. You are required to discuss your needs with your instructor no later than fourteen (14) days after the start of this course. Students who have not registered with the Disability Resource Centre are not eligible for formal academic accommodation.

PLAGIARISM AND CHEATING

Plagiarism: "to steal and pass off the ideas or words of another as one's own" (Webster's). Plagiarism will not be tolerated and will automatically result in a failing grade for the submission. Any student caught plagiarizing July also be subject to additional University sanctions. Students are expected to be familiar with the Anthropology Departments policy on intellectual honesty available at:

https://www.anth.ucalgary.ca/home/links/intellectual-honesty-guidelines

EMERGENCY EVACUATION

In the event that the classroom should need to be evacuated due to an emergency situation please note that the primary assembly point shall be at the Scurfield Hall - Atrium. The Professional Faculties food court will be the secondary evacuation point if necessary.

CLASS SCHEDULE ON A WEEKLY BASIS

The dates are approximate; changes can occur.

Part I: Introduction to Evolutionary Theory

Sept 10 General Introduction to Course

History of Evolutionary Theory

Darwin: Adaptation by Natural Selection Reading: Prologue & Chapter 1

Sept 17 Darwin: Adaptation by Natural Selection (cont.)

Movie Tree of Life

Genetics; Population Genetics **Reading**: Chapter 2

Sept 24 The Modern Synthesis

Species Concepts & Processes

Reconstructing Evolutionary Histories

Oct 1 Taxonomy

Reading: Chapters 3, 4

Oct 3 1st Exam

Part II: Introduction to Primate Studies

Oct 8 Film: The Primates

What Are Primates & Why Do We Study Them?

Reading: Chapter 5

Oct 15 Primate Taxonomic Groups

Reading: Chapter 6

Oct 22 Primate Ecology & Social systems

Reading: Chapter 7

Oct 29 Examples of field work: Karisoke

Reading: Chapter 8

Oct 31 2nd Exam

Part III: Human Evolution

Nov 5 Primate Evolution

Reading: Chapter 9

Nov 7 Film from the series "Becoming Humans"

Reading: Chapter 10

Nov 12 Reading Day; no class

Nov 14 Early Hominins;

Reading: Chapter 11

Nov 19

Material Culture and way of life of early hominins

Reading:

Chapter 12

Nov 26

Emergence of Homo

Reading:

Chapter 13

Dec 3

Neanderthals

Dec 5

Modern Humans

 $3^{\rm rd}$ Exam will take place during the Registrar-scheduled final exam period.
